

## INSTRUCTION OF MOUNTING THE BALLOON

**1** After unpacking put the balloon on the ground.

**2** Connect the plug to the mains.

**3** Remember not to cover the extractor fan.

**4** Hide the rest of cables inside the balloon. Close the zip on the bottom of balloon.

**5** Wait a moment until the balloon will fill with air.

**6** Stabilize the balloon with cords and tent-pegs.

**7** Hammer the tent-pegs into the ground.

**8** By the cord you can regulate the vertical of the balloon.
