

CATALOGUE

www.poltentbelgium.be

Inflatable advertisements are popular carriers mostly used and seen at cultural, sports and trade events. We provide inflatable products such as: inflatable tents, start/finish gates, stationary balloons and airwalls. We also offer helium balloons, flags, comfortable beanbags with individual overprints and eye-catching skydancers. We provide you with our new brand products VENTO, which undisputedly bring out the meaning of modernity and ultralight tents. VENTO is a line of air-tight tents which do not need the constant access to electricity.

We received the prize Quality of the Year 2014 and 2015. Moreover, once again we found ourselves among the financially reliable companies, and received the Gold Certificate of Business Credibility. This mobilizes us even more to create original advertisements! The award is the result of almost 10 years of efforts to create products with the highest quality.

As the manufacturer of inflatable advertisements we want to accomplish your individual ideas. That is why we are developing our 3D section, where our designer team seeks to create unusual inflatable advertisements, based on your visions and concepts.

We also provide a rental service with the possibility of assembling individual graphics, modifications of the inflatables and assembly of the carriers on the event place. What is more, we also offer a cleaning service.

We are looking forward to your challenges!

STATIONARY AND HELIUM BALLOONS

Both stationary and helium advertising balloons are permanent elements of outdoor events throughout the year. They are also gaining popularity on trades, sports events and exhibitions halls.

Are you looking for an original and extraordinary promotion of your brand? Our professional team will help you choose the right stationary or helium balloon.

Additionally you can also add energy-safe LED lighting to make your advertisement visible even at night time!

Advertising balloons are comprehensive and eye-catching advertising carriers, which will suit perfectly any outdoor event such as: sports events, concerts, picnics and trades. Our products can also be used indoor, where you can single out your brand!

The availability of five styles (Alfa, Beta, Delta, Gamma and Can) allows you to fulfil your individual needs. Adjust your brand logo to the shape, size and advertising space.

The possibility of overprinting the advertising balloons is only limited to your imagination! Beginning with uncomplicated, single-colour graphics up to full overprints without any colour limits. We offer following print techniques: screen printing, sublimation and solvent. We guarantee the best graphic suited to your expectations. What is more, you can also choose from a wide range of printed fabrics in the STANDARD and STANDARD PLUS palette (view page 16).

We offer accessories enriching the equipment of your balloon: the balloon base (steel cross or OSB base), replaceable banners mounted on turnips, sand ballasts, protective cloth against dirt during the assembly of the carrier and a transport bag. These elements facilitate the use of the balloons and prolong the service life.

Additional electric accessories: LED lighting (optionally with a dusk sensor), a power generator and a voltage converter, which makes your brand more visible! View more at: www.poltentbelgium.be

An advertising balloon looks fabulous with **LED lighting**.

alfa	height of the balloon [m]	2	3	4	5	6	8
	advertising area [m]	0,6 x 4,8	0,9 x 7,2	1,2 x 9,6	1,5 x 12,0	1,8 x 14,4	2,6 x 16,6
	mazer diameter [m]	1,5	2,3	3,1	3,8	4,6	5,3
beta	height of the balloon [m]	2	3	4	5	6	8
	advertising area [m]	0,55 x 4,5	0,8 x 6,7	1,1 x 9,0	1,4 x 11,3	1,7 x 13,5	2,3 x 18,2
	mazer diameter [m]	1,4	2,1	2,9	3,6	4,3	5,8
gamma	height of the balloon [m]	2	3	4	5	6	8
	advertising area [m]	0,65 x 5,3	0,95 x 7,9	1,3 x 10,5	1,6 x 13,2	1,9 x 15,8	2,6 x 21,3
	mazer diameter [m]	1,7	2,5	3,3	4,2	5,0	6,8

	mazer diameter [m]	1,3	1,9	2,6	3,2	3,8	

The diameter and advertising area of the can type balloon is adjusted to you individual needs and expectations.

STATIONARY BALLOONS

The helium balloon is an enormous advertising carrier. It does not require the use of a ventilator. It only needs helium to rise up to 25 meters. You can also use helium or air to fill the balloon.

We offer helium balloons with one or two coatings and airships. In the two coating balloon you can change the graphics and re-use the carrier at many different events without the need of buying a new balloon.

The remarkable shape of the airships is a definite eye-catcher.

Airships are unusual helium balloons, which can be used as original alternatives due to its shape. The graphic on the airships is visible on the side part on both sides. Adjust the colour of the ailerons to your brand!

The equipment of the airships involve: peripheral links, anchor links, anchor links, screwdriver, repair kit, transport cover and instruction manual.

- Complementary equipment enhancing the functionality of the helium balloons:
- a hanging banner made of flag fabric, available in the sizes: 1,0 x 7,0 m or 1,5 x 6,0 m.
 - a set of three sand ballasts 15 kg, they can be used when there is no possibility of attaching the helium balloon to the ground. Can be used only for up to 4 m balloons. For bigger helium balloons we recommend a set of elliptical sand ballasts 3 x 40 kg or 3 x 100 kg.
 - a protective cloth in the size 6 x 10 m used while assembling and dismantling the balloon protects it against any dirt,
 - a cover in the size 10 x 10 m with a set of pins. The cover protects the balloon against any weather conditions without the need of exhaling the helium.

ADVERTISING TENTS *SPIDERS*

Promote yourself during any outdoor events using original inflatable tents! Uneven ground? No problem! Our tents can be used at any places where traditional carriers cannot be used.

Inflatable spider tents are unconventional, multi-functional and useful advertising carriers that attract attention! Stand out!

Inflatable spider tents are multifunctional advertising carriers. Spider tents will meet people's expectations not only outdoors at any open-air events but also indoors. Concerts, festivals, family picnics, shows, sports contests and political events are only a few examples of using these spectacular tents. Spiders can not only be used as trading posts! Inflatable tents will also be perfect as lounge zones along with beanbags to creat comfortable areas just to relax or at entertainment and gastronomy points. Spider tents can have four, five or six legs. "House" tents with a peek are also very popular. You can also add extraordinary 3D elements to your tent and therefore create new advertising carriers! Your promotion using these special tents will be even more effective!

A comprehensive service is our strong point! We will help you build a spectacular promotional city out of advertising tents, start gates, balloons, airwalls, flags and comfortable beanbags. An inflatable city is a spectacular way of promoting yourself!

Halogen lighting
allows to use the tents
even in the dark!

- Increase the possibilities of using the tent using different accessories:
- connectors forming a corridor between tents,
 - a plastic floor,
 - removable walls with windows,
 - halogen lighting inside in the tent,
 - LED lighting mounted inside the tent legs,
 - replaceable graphics mounted via Velcro.

A power generator, transformer and a protective cloth against dirt are mobile accessories will enrich your tent with additional functions. However sand ballasts are an alternative when you have difficulties attaching the tent to the ground with pins.

Each inflatable tent consists of a set necessary for the installation: pins, anchors and pull cords, ventilator, hammer, instruction manual and transport bag.

SPIDERS								
model	4 legs				5 legs		6 legs	
size / diameter [m]	4x4	5x5	6x6	8x8	fi 8	fi 10	fi 8	fi 10

The availability of coloured fabrics enables fast implementation of the carrier in the chosen colour. For special orders we organize fabrics not available in the standard palette.

We guarantee limitless ways of printing via different techniques: solvent, sublimation and screen printing.

CONSTANT PRESSURE *VENTO TENT*

Meeting your expectations we have created VENTO tent, which is a symbol of modernity and utility in inflatable advertising. VENTO is a constant pressure tent, which doesn't require constant access to electricity. Compact transport size and short set up time gives you wide range of application during outdoor, sport events, sociocultural events, fairs, especially in places with limited access to electricity.

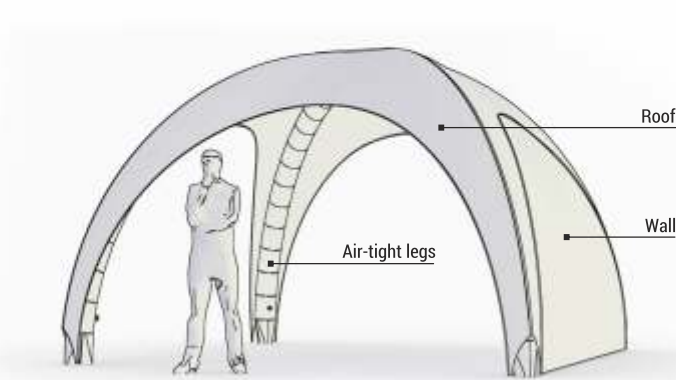

VENTO

modern, light & handy

VENTO tent is a combination of modern design, lightness and functionality. Due to air-tight modules, the tent does not require a ventilator!

There is no need to use constant power, therefore it opens up new possibilities of exposition in outdoor and indoor locations. It is especially recommended for events with limited access to electricity.

VENTO tent is based on 4 air-tight modules ("legs") and covered with a waterproof printable polyester fabric. The sheathing consists a roof and walls which are mounted with the roof with a handy zippers.

VENTO tent with full wall.

Tent walls are available in three options: full wall, wall with vertical zip and a wall with a window. Additional air-tight roofing is an accessory, which isn't just expanding the advertising area, but it also makes the tent look more presentable. The walls and additional air-tight roofing can be mounted in the same time.

VENTO tents can be combined together with a **connector**. The network of connected tents makes an extraordinary tent park.

Every VENTO tent basic equipment consists: anchors, ropes, hammer, two-stroke hand pump, manual and a transport bag.

You need about
5 minutes
to put up the tent!

- Additional equipment :
- Small **electric pump** enables to set up the VENTO tent in less than 5 minutes!
 - A **two-part weight** to fill with sand. Designed for mounting on the legs of VENTO tent in order to make the tent more stable, or to fix the tent in places, where anchors couldn't be used.
 - Lightweight constant pressure **pouf VENTO** in compact sizes (details on page no. 24).

VENTO tent is as light as a cloud! Complete VENTO 4x4 weights only 22 kg and has over 40 m² of advertising space and 15 m² of usable area.

VENTO		
model	4x4	5x5
usable area [m ²]	15	22

internal height [m]	2,65	3,30
entrance height [m]	2,20	2,50
entrance width [m]	3,70	4,50

The bigger model 5x5 provides 65 m² of advertising space and 22 m² of usable area.

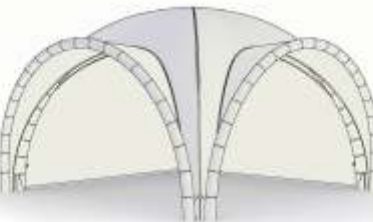

VENTO tent has no printing limits! The shell is 100% printable and colorful materials from our STANDARD Plus Palette can be provided for the legs.

VENTO tent with wall with vertical zip.

VENTO tent with a window.

VENTO with additional air-tight roofing.

START GATES AND AIRWALLS

Gates and advertising airwalls are elements of emotional sport and cultural events in the local, national and international societies. Advertising gates are essential at start and finish points on marathons, races and rides. They are also great for entering points at concerts and festivals. Airwalls are enormous advertising spaces, which will suit any mass events. We recommend airwalls with project fabrics, where you can easily mount advertising nets! Outdoor cinema lovers here we come!

Advertising gates are very popular advertising carriers at any open-air events. Due to their efficiency and expedience they can be seen and used at concerts and festivals, mountain slopes, local picnics and at sports events such as marathons and rides. Their shape and size is a denifite advantage!

They will be an eye-catcher even in the crowdest places and the best of it is, that they will have you brand logo and name!

We offer four types of gates: Rectangular, Polygon, Arched and Sinus. Due to a special base you can use the gate indoors for instance at trades.

Airwalls is a mobile way of promoting and offers a large advertising space for your needs! You only need a few minutes for the assembly and then you will be clearly visible! The assembly of the advertising nets on Velcro gives you the opportunity to change graphics for new events and promotions.

What is worth mentioning, we offer **projection airwalls**, which can be also used as advertising carriers.

Enjoy your outdoor cinema with us!
We recommend comfortable beanbags with overprints along with the airwall.

The printing technique and colours are adjusted to your individual needs. We offer sublimation, solvent and screen printing. Choose a colored fabric out of the STANDARD and STANDARD Plus palette (view site 16). If you are interested in a different fabric colour, unusual shape or size of the gate please do not hesitate to contact us! To make your advertising carrier even more visible choose 3D elements or runners. Therefore the gate will be a definite eye-catcher.

To make your airwall and gate more functional we offer: sand ballasts, a set of replaceable banners, internal LED lighting and other electrical accessories. See more at www.poltentbelgium.be

With each of our products we offer a basic equipment: anchors, ropes, a hammer, a ventilator and manual instructions. All together comes with a transport bag.

BEANBAGS, SKYDANCERS AND ADVERTISING FLAGS

A Skydancers are vigorously moving figures, which catch attention of the viewers. They are perfectly suited for outdoor events. Use comfortable advertising beanbags for additional carriers for your inflatable tents. On top of that we also offer advertising flags with your brand logo and name!

Beanbags with digital printing are comfortable accessories for outdoor and indoor events. They can also be used at homes, offices, waiting rooms or will fulfil each children's room!

We offer classical beanbags, chairs, large pillows, advertising cubes and tightly pumped beanbags. The cover is made of high quality, waterproof polyester or PU leather fabric. You can choose a filling suiting your expectations. Choose from: regranulate, Styrofoam, sponge and pumped input.

- Add original accessories to your beanbag!
- Replaceable covers is a fast way of changing the graphic without the need of ordering a complete new beanbag. A new idea comes with a new cover!
 - While using the beanbag the regranulate thickens, therefore the beanbag will require a DIY kit for refilling.
 - A shell for the chair protects it against any dirt while using it outdoors.
 - We recommend transport bags, if you wish you take you beanbag to a new event

BEANBAGS, SKYDANCERS
AND ADVERTISING FLAGS

Skydancers are intriguing and vigorously moving figures. They move due to the air entered internal via a ventilator. This way of advertising cannot remain unseen! Additionally you can use LED lighting to make the skydancer visible at night time!

We offer skydancers with one or two legs, each available in 3 sizes: from 4 to 6 meters. Use the advertising space and vivid colours via sublimation printed on European ripstop fabrics.

Skydancers visible from a distance, **perfectly for outdoor events!**

Advertising flags are classical, mobile and light in transport advertising carriers, which can be used even in the most difficult available spaces. You can use the whole advertising space due to the 100% overprint.

We offer 3 types of flags, which differ in size and shape: Ride, Rider Round and Flyer. We are open for any simple flag orders in unusual sizes.

FLAGS	Rider			Rider Round			Flyer		
size of the flag	S	M	L	S	M	L	S	M	L
size of the sheathing [m]	0,8x1,6	0,8x2,5	0,8x3,5	0,8x1,6	0,8x2,5	0,8x3,5	0,9x1,35	0,9x2,35	0,9x3,30
height of the mast [m]	2,00	3,10	4,20	2,00	3,10	4,20	1,75	2,80	3,90

We offer a wide choice of flag bases suited for different basis and purposes: cross bases, rubber base, spikes and bases. Our professional consultant will help you choose the right base.

A detailed offer is available at www.poltentbelgium.be

Individual 3D
projects and
the realization
of unusual
orders.

Unusual shapes, replicas of products or gigantic mascots. Original realizations guarantee attraction of the viewers and will be remembered during the event and even longer! They can be used indoors for instance in sport halls, trade and other events where original advertisements are needed.

We make every effort to complete each advertising carrier in the smallest detail. Control at each production step is the priority of Poltent!

Extraordinary shapes and sizes is the specialty of our graphic designers and constructors. If you have an original idea for an advertisement, please do not hesitate to contact us. Together we can create something remarkable!

The Poltent team involves young enthusiasts. We work hardly to fulfil your needs and expectations!

UNUSUAL REALIZATIONS

Full overprints
mean **no limitation**
to the imagination!

The printing technology is suited to even the most demanding customers. Sublimation offers vivid colours. Solvent is the synonym to durability. It is also easy to keep clean. Screen printing is the perfect solution for repeated and simple graphics. Our team will help you choosing the right printing technology. We implement any printings from simple writings up to 100% overprints. We also offer coloured fabrics.

Contact us in the most comfortable way for you: through the telephone, fill out the contact form at www.poltentbelgium.be or simply send us your inquiry via e-mail on info@polntentbelgium.be
